                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               BABBBBBB
```

```
ADE78189 standard; peptide; 9 AA.
Synthetic peptide (SeqID 440) that binds atherosclerotic lesions.
WO2003014145-A2.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           ADE77757 standard, peptide, 9 AA.
Synthetic peptide (SeqID 8) that binds atherosclerotic lesions.
WO2003014145-A2.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             AAG88479 standard; peptide; 9 AA.
HER2/NEU DR supermotif binding peptide core sequence #96.
WO200141787-A1.
                                                                                                                                                                                                                    26-AUG-2004.

Sequence 56935, Application US/09270767

Patent No. 6703491

GENERAL INFORMATION:

GENERAL INFORMATION:

APPLICANT: Homburger et al.

TITLE OF INVENTION: Nucleic acids and proteins of Drosophila melanogaster

FILE REFERENCE: File Reference: 7326-094

CURRENT APPLICATION NUMBER: US/09/270,767

CURRENT PILING DATE: 1999-03-17

NUMBER OF SEQ ID NOS: 62517

SOFTWARE: PatentIn Ver. 2.0

SEQ ID NO 56935

LENGTH: 42
